Which data do have to be entered under "NVU (Publishen)" ?

NVU is an OpenSource (i.e. free) web site editor.
The project page can be found under http://www.nvu.com

Versions in many different languages are available on the website.

The following entries have to be made in the window "Publish Page" (Veröffentlichen) (Under the tab "Settings/Einstellungen")

Site Name: any name (that could be the website's name for instance).

Web Site Information: http://www.yourwebsite.tld

Publishing Server Address: ftp://ftp.euserv.de/www/data

Username: Username

Password: Password

You will find the FTP data in the customer center under "FTP-Accounts".
