Windows Mail

How do I set up my eMail account under Windows Mail ?

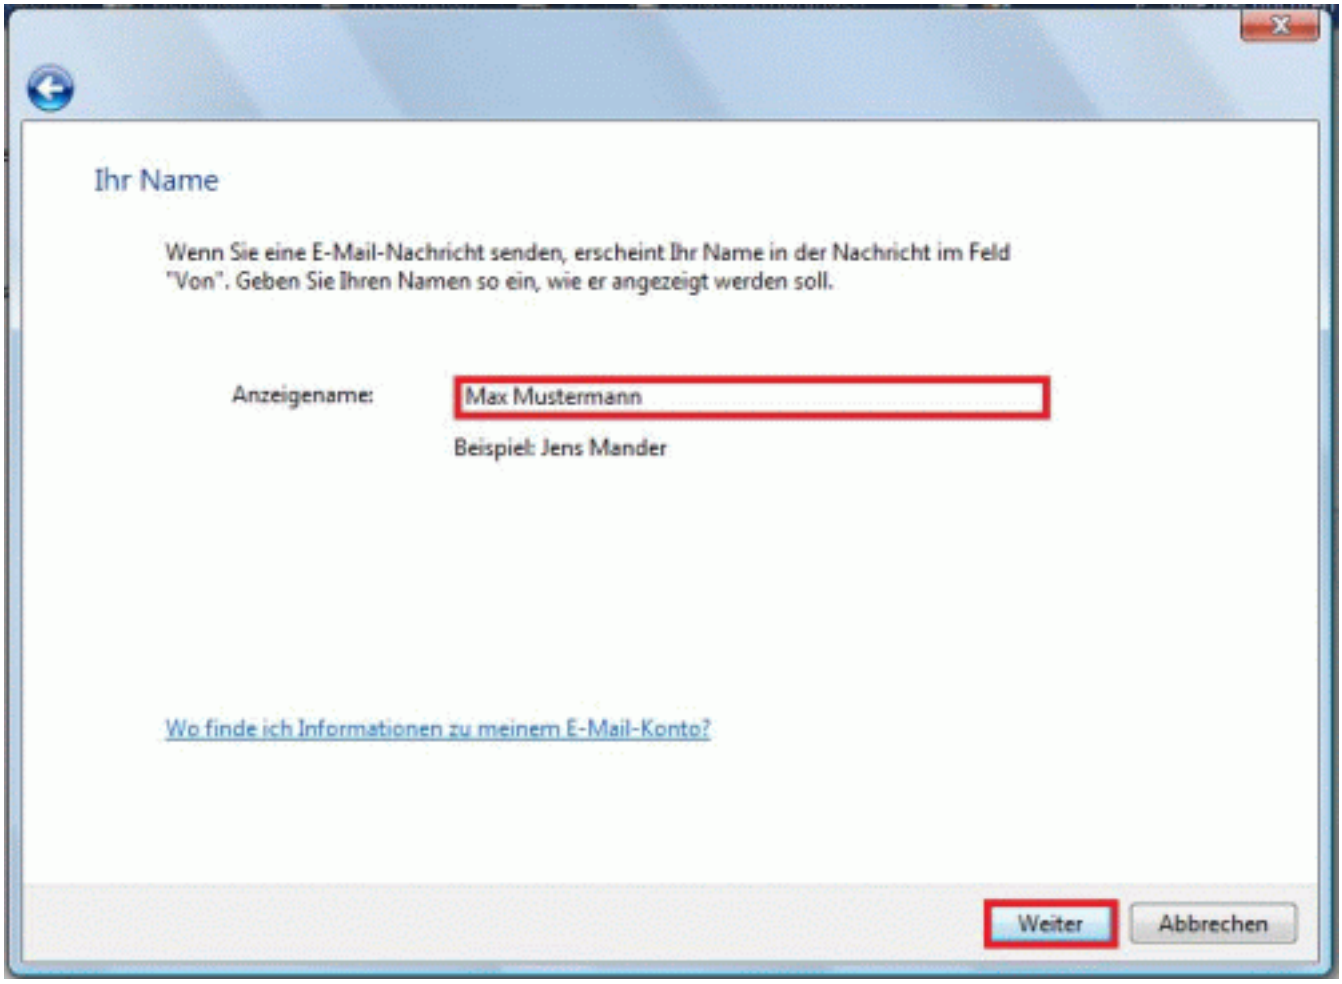

When setting up Windows Mail for the first time you will be supported by a Wizard. You can reach the Wizard alternatively by selecting "Tools -> Accounts" and clicking "Add" subsequently:

Choose "E-Mail Account here" and click **"Next"** to proceed.

Now enter your name:

Click **"Next"** to proceed.

Choose a Server Type you want to use. We recommend using **IMAP**, in case you tariff supports this option.

Enter the Incoming and Outgoing mail server. The values which have to be entered can be found in the customer center under "Email-Accounts".

Also make the tick in the field **"My server requires authentication"**.
