How do I include the counter into my existing website ?

Please proceed as follows:

1. Log in to the customer center and select the right contract
2. Click on "Counter" and create a new counter.
3. Click on the ANZEIGEN button, a window opens up.
4. You get the following prompt (the ID however is always unique):

```
<a href="http://www.euserv.de?ref=counter" target="_blank">

</a>
```

Copy the link from this output for the counter image. It reads as follows:

```
http://cgiscripts.kundencontroller.de/cnt2/?web\_id=ZO080J8pz5
```

1. Now paste this into your HTML program as image source. Therefore you just add a picture at the desired position.
Now you are able to define the image source in the picture's properties.
