Co-Domain

What is a domain dummy?

At certain Hosting plans you are able to register additional domains as a Co-domain.

If a free of charge Co-domain is terminated in xour contract, its 'place' will be occupied by a dummy and no new free co-domains can be applied for.

If you wish to delete this dummy, you can delete it in the customerpanel by choosing 'Domains' section. But please note, that costs for deletion may apply which will be displayed in customer panel.
