

Server

For which versions of Plesk is my Plesk key valid?

Your installed Plesk version can be inspected in the customer service center:

Software :: Plesk

Here you can download your Pleskkey in the contract, so it can be loaded into your Plesk - installation after downloading.

Keyname/ID	Version	Status	Actions
	10		download key

Plesk license version 8 is valid for all versions from 8.x.

Plesk license version 9 is valid for all versions from 9.0 to 9.4.x.

Plesk license version 9.5 is valid for all versions from 9.5 to 9.9.x.

Plesk license version 10 is valid for all versions 10.x and 11.x.

The Plesk license will be extended/renewed automatically after installing on the Plesk admin interface.
